SUMMARY

Dynamic Software Developer with 3+ years of specialized experience in creating robust, scalable applications with focus on Python and full-stack web development. Demonstrated expertise in designing and implementing innovative solutions that enhance user experience and optimize application performance. Skilled in collaborative development environments and committed to continuous learning, consistently delivering high-quality software while effectively engaging with cross-functional teams.

EXPERIENCE

Python Developer (ML)

PangeaGlobal Enterprises

📅 10/2024 - 3/2025

Python Developer ML | PangeaGlobal Enterprises (on site job)

- Designed and maintained advanced web applications using Python, Flask, ReactJS, and Tailwind CSS, improving application response times by 30%.
- Partnered with cross-functional teams to develop innovative solutions, enhancing user experience and streamlining system performance.
- Integrated Flask-based APIs with ReactJS frontends to ensure seamless data communication and optimal rendering across devices.
- Developed and deployed an AI-powered customer support chatbot utilizing Python and NLP libraries, increasing customer engagement significantly.
- Conducted comprehensive code reviews and debugging, contributing to improved software quality and timely project delivery.

TNC IT Solutions LLC, DUBAI

📅 8/2023 - 2/2025

Full Stack Developer | TNC IT Solutions LLC (Remote job)

- Developed and deployed scalable web applications using modern JavaScript frameworks and backend technologies, delivering solutions that met client requirements.
- Collaborated with cross-functional teams to design full-stack features, ensuring seamless integration between frontend and backend services.
- Built and maintained RESTful APIs and database architectures, optimizing data flow and application performance.
- Implemented responsive user interfaces using contemporary frontend frameworks, enhancing user experience and cross-browser compatibility.
- Participated in code reviews and debugging, contributing to improved code quality and adherence to best practices.
- Worked with project managers and stakeholders to gather requirements and deliver projects within timelines.

KEY ACHIEVEMENTS

Python Project Efficiency

Engineered and implemented Python solutions that increased operational efficiency by 25% within six months, exceeding initial project benchmarks

Team Project Leadership

Successfully led a cross-functional team of 5 developers in delivering a mission-critical project ahead of schedule, reducing overall delivery time by 20%.

API Integration Success

Strategically integrated and optimized multiple APIs, resulting in 40% improvement in performance metrics across all supported platforms

EDUCATION

Bachelors of Software Engineering

The University of Lahore

📅 01/2022 - 02/2026

FSC Pre-Engineering

Murry College

📅 09/2018 - 06/2021

SKILLS

Python | ML Engineer | TensorFlow
Scikit-learn | NLP | Django
Flask | Node.js | Express.js
Full Stack Development | Web Development | JavaScript
ReactJs | HTML | CSS
Tailwind | Flutter | Dart
PHP | MongoDB | MySQL
PostgreSQL | Firebase | Docker
VPS | Hostinger | Linux
Kali Linux | Metasploit | Agile
Dataflow | Vercel
